

Personal CyberSecurity Professional Statement

My name is Zikpi Agbemenyo Kossi, a University Professional Certificate graduate . I enjoy life long learning , Building strong cutting Edge Skills ,and like challenges to find creative solutions. I like computer programming ,how Systems work and interact ,and I also have a passion for Emerging Technologies. I also like analyzing complex tasks. I have a passion for technology and enjoy helping others . I set up a Computer Coding Teaching LAB Class to help the younger generation of children to learn Coding and Cyber Security at an early age . I am interested in the field of security but have some part time remote experience. I want an entry-level cybersecurity position that will utilize my drive and thirst for knowledge and lifelong learning. I believe my Google IT Support Professional Certificate ,Google Cybersecurity Professional Certificate and Other Industries Professional Certificate will make me a better candidate and will help me Grow, develop, hone my professional skills to thrive in the Cyber security Industries.
